

Which Angelcare Baby Monitor to Buy?

Angelcare[®]
FOR YOUR PEACE OF MIND

Some Monitor Basics

- Angelcare has four types of baby monitor
 - sound only
 - sound + movement pads
 - video & sound
 - video & sound + movement pads
- Each monitor has at least two parts
 - the baby unit has the microphone or camera
 - the parent unit has a speaker or video screen
 - the optional movement pads sit under the mattress

Some features explained

Feature	Explained
Out of range warning	Will let you know if you walk too far away from the baby unit to hear the signal from the baby unit
Battery operated	Does the parent or baby unit use a built in battery you can recharge or does it plug into a powerpoint
Two way communication	Can you use the monitor as a walkie talkie to speak back to your baby as well as listen
Temperature indicator	Lets you know how warm your baby's room is so you can see the temperature on your parent unit
Night light	Turn on a light on the baby's unit remotely. Or maybe turn it on when you leave, then turn it off later.
Timer	To help you keep track of baby's sleep time, awake time, etc.
Infrared video camera	Infrared video monitors allows the camera to watch your baby in a dark room
Movement pad	Detects all of a baby's slightest movements. Placed under the mattress.

Angelcare Sound Monitors

AC420

Angelcare's entry level sound monitor, reliable, good range. Both the parent unit and baby unit can use battery power or a powerpoint. Sound from baby unit to parent unit only (not 2-way) and has an out of range and low battery warning. Temperature display and night light.

AC401

All the features of the AC420 plus:

- Audio "Tic" Feature – your Parent Unit will make a ticking sound to reassure you that the monitor is working even when your baby is sleeping silently
- Under-the-Mattress Movement Sensor Pad – Senses every one of your baby's movements and will sound an alarm if no movement detected after 20 seconds.

Angelcare Video Monitors

AC1120

Angelcare's video monitor has a colour 7cm video touchscreen screen plus infrared night vision. Two way audio, a timer, temperature display & night light. Out of range and low battery indicators.

AC1100

All the features of the AC1120 plus:

- Audio "Tic" Feature – your Parent Unit will make a ticking sound to reassure you that the monitor is working even when your baby is sleeping silently
- Under-the-Mattress Movement Sensor Pad – Senses every one of your baby's movements and will sound an alarm if no movement detected after 20 seconds.
